

A pixelated, grayscale image of a stylized letter 'L' or '7'. The shape is composed of black and dark gray pixels, with lighter gray pixels forming a border or shadow effect. The overall appearance is that of a low-resolution digital graphic or a stylized font element.

A 16x16 grayscale pixelated version of the number 2. The image is composed of a grid of small squares, each filled with a different shade of gray, ranging from very light to black. The overall shape is a stylized, blocky representation of the digit '2'. The top part is a horizontal bar, followed by a vertical stem on the right side, and a diagonal base that slopes down to the left. The edges are jagged due to the pixelated nature of the image.
